

1 **II. AMENDMENTS TO THE DRAWINGS**

2 The Examiner states at page 3, paragraph 2 that the drawings of 10/4/04 are not  
3 approved because it is nuclear what changes have been made and that they do not  
4 overcome the objection set forth at page 3, paragraph 3 re: the substituted "figure shows  
5 modified forms of the drive means because it shows both the gear means 430, and the  
6 key/notch 420/425." and that these structures are mutually exclusive drive means.

7 The identical drawings for Fig. 6, as submitted on 10/4/04, are again submitted  
8 with direction respectfully provided by line and note. The Examiner will see in the  
9 "Replacement Sheet 10/4/04" the dashed line indicating that the motor is affixed between  
10 the two sets of plates with the shaft engaging only apertures (217) and (227).

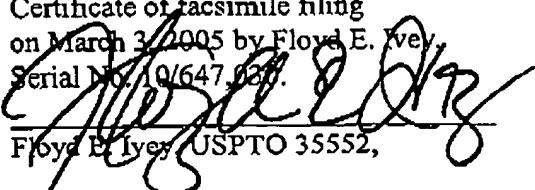

11 Regarding the matter of notch v. gear, your applicant respectfully submits that  
12 matter of the motor (400) being immovably affixed to one plate (215) and either  
13 notch/key or gear related to a second plate (220) will be obvious to one of ordinary skill.  
14 Your applicant is agreeable to submitting an additional drawing as Fig. 6A showing the  
15 gear removed but respectfully submits that such will require the additional drafting time  
16 in amendment of the specification. Your applicant submits that those of ordinary skill  
17 will appreciate the drawings as illustrating options.

18 Your applicant respectfully requests the Examiner to accept Fig. 6 as amended  
19 and as submitted in the prior paper and to withdraw the objection and allow the  
20 application to be prosecuted on the merits. Your applicant observes that the Examiner  
21 states at page 4 that "If changes are not accepted by the examiner, the applicant will be  
22 notified and informed of any required corrective action in the next Office action. The  
23 objection to the drawings will not be held in abeyance." Your applicant is uncertain of  
24 the meaning of these statements and requests the Examiner to consider the requests of the  
25 applicant and to advise if additional changes are required.
